

## elnvoicing and the Customer Portal

Sage 100 ERP Software

Introducing elnvoicing, the newest payment feature available within Sage 100 ERP! Powered by Paya and built directly into your existing software elnvoicing helps clients get paid faster, save time by eliminating the need for manual entry, and drastically reduce time spent on month-end reconciliation.

## **New elnvoicing Features**

- Click-to-pay email, with PDF invoice, featuring a link to pay online
- Secure customer web portal for invoice and sales order payments
- Auto-updates for Sage 100 ERP AR/GL accounts
- Payments support for card-on-file, credit, debit or ACH
- Integrations to A/R, sales order, and job cost billing modules
- Credit card and ACH tokenization to Paya Vault for future payments
- User-friendly interface to manage customer payments configurations, sales orders, and invoice payments

## **Existing Sage 100 ERP Features**

- **EMV®** Integration
- Sage 100 ERP's Only Certified Payment Solution
- Integrated ACH Processing
- Flexible Pricing Options
- Automatic Level 3 Data Enrichment
- Built Into the Software With No Setup Fees
- Paya's Sage-Recognized PCI Compliance
- Account Updater
- Quick underwriting with faster funding
