Sage

Sage BusinessWorks Release Notes: V2021 SP20

The following is a summary of changes included in the Sage BusinessWorks V2021 SP20 release.

If a change affects more than one module, it is listed under the System-Wide heading.

Knowledgebase Articles

Answers to many of your questions can be found on the Sage Support Knowledgebase (KB).

- 1. Product updates, service packs and tax table updates are now accessible on the Sage KnowledgeBase at https://www.sagekb.com
- 2. Click **Sign in**. Use your same login credentials as the Sage Customer and Partner Portal for Knowledgebase and download access and click **Log on**.
- 3. Select My Downloads
- 4. Choose Sage BusinessWorks
- 5. In the middle of the page, you will see Latest upgrade. Select the service pack for 2021.
- 6. The new and improved knowledgebase offers expanded search capabilities and allows faster publication of new articles.
- * If you have not registered for the Sage Knowledgebase, click sign up and follow the instructions. Shortly after completing your registration, you will receive a registration confirmation.

For further information about the defect fixed search www.sagekb.com by the KB article # listed.

2021 SP 20 – Important notes:

- Installing SP20 may require a database update (if updating from 2021 SP16 or earlier to 2021 SP20)
- To update all databases at one time, see <u>How do I update all my databases at one time?</u>
- If installing a service pack in a network environment install the service pack on the server and all
 workstations prior to working in 2021 SP20.

Pavroll

Timecard report totals are now displaying correctly.	

Order Entry

Tab order incorrect in OE, Orders, Maintain Sales Orders

Tab order has been corrected in Maintain Sales Orders.

2021 SP 18 - early tax table update

Payroll

Alabama overtime rule effective 1/1/2024

The Overtime Exempt (AL) entry from the Earnings field in Time Card Entry and Standard Time Card Entry has been removed. Remove Overtime Exempt (AL) entry from any unprocessed timecards (PR, Processing, Time Card Entry) or Standard timecards (PR, Processing, Standard Time Card Entry) prior to processing next payroll calculation.

- See Alabama Overtime Exemption effective 1/1/2024 for further information
- If this service pack needs to be installed before W-2s have been printed you will need to manually update the OASDI limit to the 2023 limit before printing W-2s. See Payroll Tax Table Update was installed too early for further instructions

PR, Processing, Manual Payroll Calculation, Ded/Other pays...

The correct Deduction and Other pay information now displays after performing an automatic payroll calculation. See <u>A</u> value displays in Overtime Exempt (AL) displays when doing a manual payroll calculation for further information.

PR, Processing, Enter Handchecks, Ded/Other pays...

The correct Deduction and Other pay information now displays.

PR, Processing, Print Payroll Checks shows incorrect vacation time earned and taken

The correct values of vacation earned and taken as well as sick pay earned and taken now calculate.

Note: This caused items like the check stub and the check voucher to display incorrect vacation/sick values. See <u>Vacation</u> earned and taken incorrect after processing payroll for further details.

- If you previously processed payroll using Sage BusinessWorks 2021 SP17 and need a corrected check stub/voucher:
 - NOTE: If direct deposit is used, inactivate direct deposit in PR, Employees, Maintain Employees, Direct dep...
 - Void any previous payroll checks with the incorrect hours using the original check date (PR, Processing, Void Payroll Checks, by check)
 - o Select Restore Time Card
 - Process pay checks on 2021 SP18 so that they match the previous pay check. The check should use the same date and check number as previously printed. This check is for tax reporting purposes only and is not to be redistributed to employees. This check can printed to plain paper or to PDF.
 - NOTE: If direct deposit was inactivated, be sure activate again in PR, Employees, Maintain Employees, Direct dep...
- If you previously processed payroll on Sage BusinessWorks 2021 SP17 and do not need a corrected

check stub/voucher:

NOTE: This option does not correct previous payroll check detail such as vouchers, reports and custom exports. If you would like this detail, you will need to use the instructions above to void checks and reprint on the current service pack.

- o Install 2021 SP18
- Select PR, Employees, Maintain Employees, Vacation
- o Adjust the earned and taken values to display the correct values

2021 SP 18 also includes all the payroll tax updates included in 2021 SP17.

2021 SP 17- If you are on this version, please update to 2021 SP 18 as soon as possible

Wisconsin	Deduction rates updated for 2024
Wyoming	SUI taxable wage base updated to \$30,900 for 2024

Alabama overtime rule effective 1/1/2024

A new earnings type has been added to the Payroll Timecard called Overtime Exempt (AL). Hours added with this earning type will not be subject to SWT but will be subject to all other taxes. The correct overtime pay rate must be manually calculated. This earning will appear on all reports and forms that show overtime earnings.

- See <u>Alabama Overtime Exemption effective 1/1/2024</u> for further information
- If this service pack needs to be installed before W-2s have been printed you will need to manually update the OASDI limit to the 2023 limit before printing W-2s. See Payroll Tax Table Update was installed too early for further instructions

PR, Utilities, Maintain Tax Tables and Activate States now allows 5 decimal places

Rates in Activate States and Maintain Tax Tables are now 5 decimal places. Print Tax Tables also displays 5 decimal places for rates.

Oregon OR OQ form not correctly populating lines 13b and 14b (Paid Leave)

OR OQ form will now correctly populate lines 13b and 14b (Paid Leave).

System Manager

Database update is required after installing SP17

Due to changes made within the database you will need to run the database update for all companies. See <u>How do I update</u> <u>all my databases at one time?</u> for further instructions.

Accounts Payable

Tab order incorrect when using prepaid terms

Tab order in AP Invoices when using a prepaid term has been corrected.

Order Entry

Tab order incorrect in Print Pick Ticket

Tab order in Print Pick Tickets has been corrected.

2021 SP16

Payroll

PR, Taxes, Maintain Tax Tables	
Illinois	SWT personal exemption updated to \$2,225.00 for remainder of 2023

System Manager

Path shows an invalid path when importing

Invalid path no longer displays.

Cash Management

2021 SP12

Accounts Payable

AP, Vendors, Maintain Vendors, Other...

The 1099/MISC/NEC drop-down has been updated to move Excess golden parachute payments to box 14 and Nonqualified deferred compensation to box 15 to meet the 2022 1099-MISC requirements. Prior to printing your 2022 1099-MISC run the 1099 Worksheet (AP, Vendors, 1099 Worksheet) and if any vendor has a value in box 13 or 14 you must update to the correct 2022 designation box 14 or 15.

2021 SP11

Payroll

PR, Transfer, Import Employee Information

The No Active State message now appears instead of just closing out of the import task.

Accounts Receivable

AR, Transactions, Void Receipts

The void date is no longer changed to the current date or system date when voiding a customer receipt.

AR, Transactions, Invoices

You are now able to use the tab to enter line items, including tabbing to Accept button.

BWGAccess/Order Entry

Next Sales Order and Quote number is reset when using BWGAccess

Next Quote numbers and next Sales Order numbers are no longer incorrectly updated when importing a change to quotes and / or orders thru BWGaccess. Likewise, dates on quotes and orders that are being updated are left alone unless the file specifically makes the change.

2021 SP10

PR, Taxes, Maintain Tax Tables		
Alabama	SWT updated for 2022	
Kentucky	SUI wage base change back to \$10,800 for 2022	
Maryland	SWT Deduction amounts have been updated for 2022	
Utah	Utah Withholding rate (4.85%) and credit updated for 2022

2021 SP7

Accounts Payable

AP, Checks, Void Payments, Void Payments by Vendor

Error "EFT# ALREADY VOIDED..." no longer appears when voiding EFT payments with duplicate EFT numbers.

AP, Checks, Void Payments, Void Payments by Vendor

Error "INVALID VOID DATE..." no longer appears when voiding CC payments with duplicate reference numbers and different dates.

AP, Checks, Void Payments, Void Payments by Vendor

Error "REF# xxxxxx ALREADY VOIDED..." no longer appears when voiding vendor credit card payments with duplicate reference numbers.

AP, Checks, Void Payments, Void Payments by Vendor

Error "CHECK #nnnn ALREADY VOIDED..." no longer appears when voiding checks with duplicate numbers.

Payroll

PR, Taxes, Enhanced Tax Reporting

Error "Error opening company.asd" no longer appears when accessing Enhanced Tax Reporting after restoring a backup to a new ID or copying a company. The Backup and Restore process has been corrected to include pertinent Enhanced Tax Reporting Files.

System Manager

Invalid Floating Point Operation

Error "Invalid Floating Point Operation" no longer appears when trying to enter check or reference values longer than the maximum allowed characters. There are still 2 spots where the error will occur if trying to enter a value longer than the maximum allowed, Enter Bank Transactions (Reference #) and Billings (Invoice #). These 2 will be fixed in a future release.

All reports that allow filtering by phone number

Area code + telephone number can now be entered in phone number filter parameter

2021 SP6

Accounts Receivable

AR, Transfer, Import Customer Prices

The error no longer appears when importing when customers or parts have spaces in the ID.

Order Entry

OE, Transfer, Custom Export

The diaresis (Y with two dots) no longer appears when export includes blank spaces.

OE, Invoices, Select Orders to Invoice, Manual

The error no longer appears when previewing Sales Order.

OE, Invoices, Direct Invoicing

The tab order has been corrected to move to order# field after picking the "Source".

Payroll

PR, Employees, Employee Totals Verification	
The error no longer displays when printing or previewing the Employee Totals Verification Report.	
PR, Taxes, Maintain Tax Tables	
Idaho	SWT tables updated for 2021
Kansas	SWT tables updated for 2021
Ohio	SWT tables updated for 2021
New York	SWT tables updated for 2021. Special note: The New York married tax table exceeds the number of rows supported in the database. An option was added to allow for the selection of Married <\$1,077,550 or Married >\$1,077,550. If, by chance, the employee is in a greater tier, the selection will need to be updated in PR, Employees, Maintain Employees, Status, Filing Status.

System Manager

Utilities, Report Grou	Ut	tilities. Re	port Groups
------------------------	----	--------------	-------------

Error no longer appears when working in report groups.

Selecting to copy a report

No longer receive an error or computer lock-up when copying a report.

2021 SP1

Accounts Payable

AP, Vendor, 1099 Processing

The dash characters will be removed from the vendor's Federal ID number when sending the file to Aatrix.

Box 9 has been added to the 1099-MISC box selection.

AP, Vendor, Vendor Inquiry

Account number no longer truncated on the GL Distribution in the Vendor Inquiry screen.

AP, Checks, Enter Payments

Tab order is now correct in AP, Checks, Enter Payments.

AP, Invoices, Invoices, Enter

The text in the account number field is now selected when it is accessed using Tab or Enter key.

AP, Invoices, Invoices, Enter

The text in the amount field is now selected when it is accessed using Tab or Enter key.

Accounts Receivable

AR, Transactions, Credit Memo

No longer get "INVALID REFERENCE NUMBER" when changing credit memo reference.

AR, Reports, Customer Reports, Customer List

Access Violation error no longer occurs when selecting to customize the Customer List.

Cash Management

CM, Transactions, Enter Bank Transaction

Tab order no longer incorrect in Enter Bank Transactions.

CM, Reports, Cash Account Register

Check number no longer truncated on Cash Account Register.

General Ledger

GL, Power Search

Power Search will now refresh when hitting Enter in the General Ledger Module.

Inventory Control

IC, Parts, Maintain Parts, Categories

Tab order no longer incorrect in IC, Parts, Maintain Parts, Categories.

IC, Parts, Maintain Parts

Substitute part now allows decimals.

IC, Transactions, Receipt Adjustments

Substitute part now allows decimals. The date of a receipt adjustment can now be changed.

Job Cost

JC, Reports, Cost Variance Report

Error message no longer occurs when running Cost Variance Report for specific job or customer.

Order Entry

OE, Invoices, Direct Invoicing

Credit card info button is no longer disabled when entering payment on OE invoice.

OE, Orders, Maintain Sales Orders

Tab order has been corrected in the Maintain Sales Orders.

Payroll

FWT tax calculation

Dependents value is now correctly treated as a credit to annual tax instead of a reduction of taxable income.

System Manager

Utilities, Security Report

Text no longer overlaps and looks garbled on the Security Report.

Sound when entering through fields

Sound no longer plays when hitting Enter through fields when entering items such as invoices.

How Do I

No longer get error "Can't reach this page" when accessing How do I.

Notes

Notes now wrap when the end of the line is reached.

Color Preference Settings

Color scheme no longer continues using the user preference after the option to Allow User Preferences has been unchecked.

Emailing Reports does not allow use of the Outlook address book

Outlook address book is now available when emailing reports. To access the address book, you must click the To button when using the Electronic Forms Manager.

Database Update

"Class not found" error no longer occurs when updating databases 2011 and prior.

Utilities, Maintain Users

Error no longer displays when changing the MANAGER password.

2021

Accounts Payable

AP, Vendor, 1099 Processing

Program will retain the EIN in internal tables when Payroll is not being used.

Support has been added for the 1099-NEC form. Any vendor set to 1099 box 7 in version 2020 and earlier will display on the 1099-NEC form in 2021. To support this change option for the 1099-NEC has been added under **AP**, **Vendors**, **Global Vendor Change**.

<u>Note:</u> The 2021 1099-NEC form has not yet been released by Aatrix. If you attempt to run the 1099-NEC prior to Aatrix releasing the form you will receive errors.

Spelling of Vendor corrected on 1099 Federal ID number truncation error.

Order Entry

OE, Orders, Maintain Sales Orders

When creating a new order, the focus now defaults to the date field. Previously focus defaulted to the 'next' field. Changing this default may help reduce the possibility of creating duplicate records.

OE, Transfer, Import Quotes and Sales Orders

Enhanced the Import Quotes and Orders application to allow (via checkbox) the ability to DELETE and existing quotes/order. An error message will occur if there is an attempt to delete a sales order that has been shipped, invoiced or has payment information attached.

Note: New checkbox option "Delete existing quotes and orders" is mutually exclusive to the reassign feature. Meaning only either reassign or delete can be in effect at one time.

PR, Utilities, Maintain Other Pays

Add to Gross checkbox is now automatically selected when creating a new Other Pay

PR, Utilities, Maintain Payroll Parameters / Checks

Options has been added to 'Mask Bank Acct # on stubs' for direct deposit checks. Selecting this option will only display the last 4 digits of the employee's bank account on the direct deposit stub.

PR, Utilities, Maintain Payroll Forms

Updated the fields available to be added to a Payroll check form to include two (2) new YTD columns. These columns now support YTD values for both charged tips and cash tips. The YTD values are stored in the following fields: Check Stub: Tips (YTD) and Check Stub: Cash Tips (YTD).

These fields will need to be manually added to the check stubs.

PR, Taxes, Print 941

Wages in Excess of 200,000 will now populate in the correct field on the 941.

PR, Processing, Time Card Entry

Updated the application to recalculate the gross pay when the standard rate ID is changed.

PR, Transfer, Import Time Card

Application has been modified to NOT allow imports of Deduction or OtherPay entries without a valid ID.

System Manager

End User License Agreement (EULA)

EULA has been updated.

Upgrade Sample to 2020

Sample has been updated to 2020.

Forms updated to allow for four-digit year

Accounts Receivable, Order Entry and Payroll have been updated to use the MM/DD/YYYY format for dates when printing forms.

Database version updated

The database version has been updated to 2021.

Install issues

The version number of the Sage BusinessWorks client, profile and server installation have been updated to 2021. This should resolve installation errors seen when installing on clients or in a terminal server environment. Errors encountered may have included, "Unable to complete the startup of the Sage BusinessWorks product. The version of this workstation's Sage Businessworks client does not match the version of the server installation..." and ""The Sage BusinessWorks installation originally performed by User [UserID] on this computer is version 2019. This profile installation is version 2020. Browse to the Sage BusinessWorks program folder and run BWProfile.exe from there."

Email default updated

Your default email service when emailing reports or forms might have changed based on the version of Office you have installed. Please refer to KB 106859 for more information.
